

14" Rotating Ranch Axe

for Skid Steer Loaders

The **Dymax 14" Rotating Ranch Axe Tree Shear** for skid steer loaders is ideal for general land clearing where materials are no more than 14 inches in diameter.

Dymax 14" rotating Ranch Axe Tree Shears feature near ground level cutting and are powered by a 6" heavy duty shear cylinder.

Features 110 degrees of hydraulic rotation powered through a heavy duty 3" cylinder. A 12v diverter valve is supplied along with a basic wiring kit.

The **Dymax 14" Ranch Axe Tree Shear** is designed for machines with a minimum of 2200lbs of operating capacity, minimum flow rate of 15 gpm. Cylinders are rated 3000psi and optimum results will be achieved near those levels.

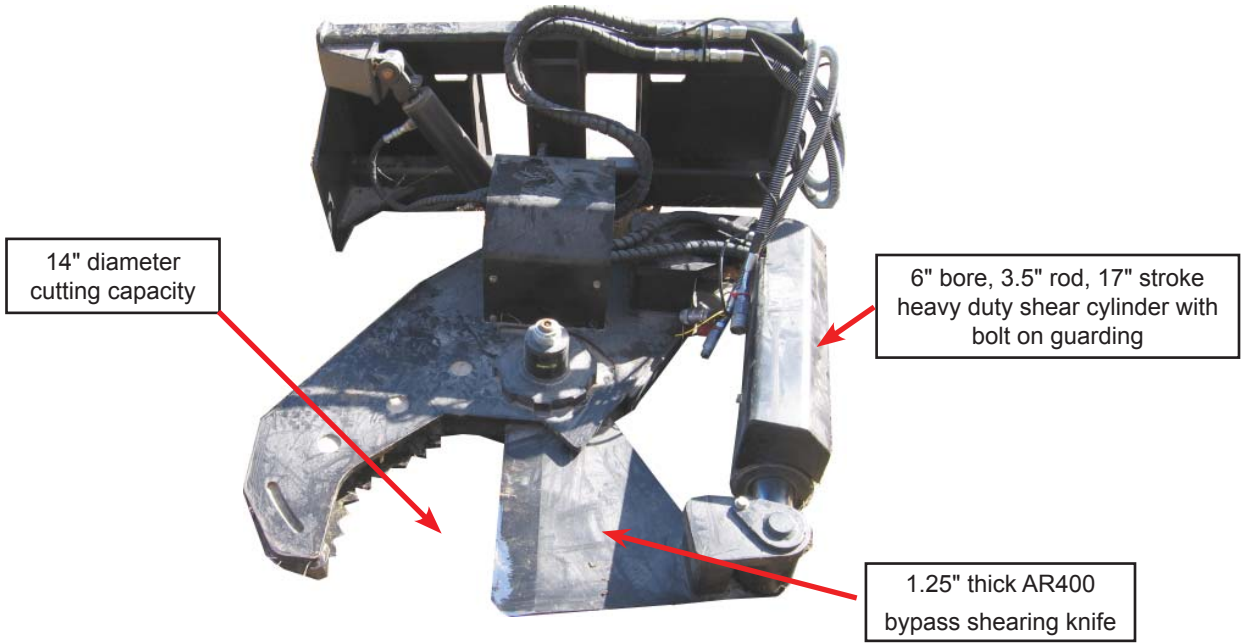

1.25" thick AR400 bypass shearing knife allowing for easier shearing of hardwoods with less resistance than fixed anvils.

All units are equipped with universal mount skid steer coupler hooks to work with most new model skid steer loaders.

A 4 gallon capacity sprayer kit option is available upon request.
